Financial instruments include cash and any contracts that give rise to a financial asset to one party and a financial liability or equity instrument to another party. Financial instruments disclosure requires information about the classification and fair value of financial instruments, including their classification within a hierarchy that prioritizes the inputs to fair value measurements. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

Fair Values

As at April 30, 2016, the Company's carrying values of cash and cash equivalents, accounts receivable, reclamation bonds and deposits, accounts payable and accrued liabilities approximate their fair values due to their short terms to maturity. The Company has no assets measured at fair value on a recurring basis.

Credit Risk

The Company deposits cash and cash equivalents with high credit quality financial institutions as determined by rating agencies. Accounts receivable are primarily from governments.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with its financial liabilities. The Company is reliant upon equity issuances as its sole source of cash. The Company manages liquidity risk by trying to maintain an adequate level of cash and cash equivalents to meet its ongoing obligations. The Company continuously reviews its actual expenditures and forecast cash flows and matches the maturity dates of its cash equivalents to capital and operating needs.

Currency Risk

As at April 30, 2016 the Company incurs expenses in Canadian dollars, Mexican pesos and United States dollars. The Company therefore has exposure to United States dollars as the functional currencies of the Company and its Mexican subsidiaries are Canadian dollars and Mexican pesos respectively. Both of these exposures are immaterial.

As part of the Arrangement, Bearing agreed to indemnify Levon from any tax liabilities associated with the transfer of the assets to Bearing from Valley High. At this time, the Company does not believe that any significant liabilities will arise as a result of this indemnification. This liability, if any, will not be known until all tax returns are completed.
